

# TRACER R2.4 UPDATES

SHARMAZANASHVILI Alexander  
**Georgian Technical University**

## ATLAS Tracer Team:

PHATARIDZE Lasha – *Events interpretation*

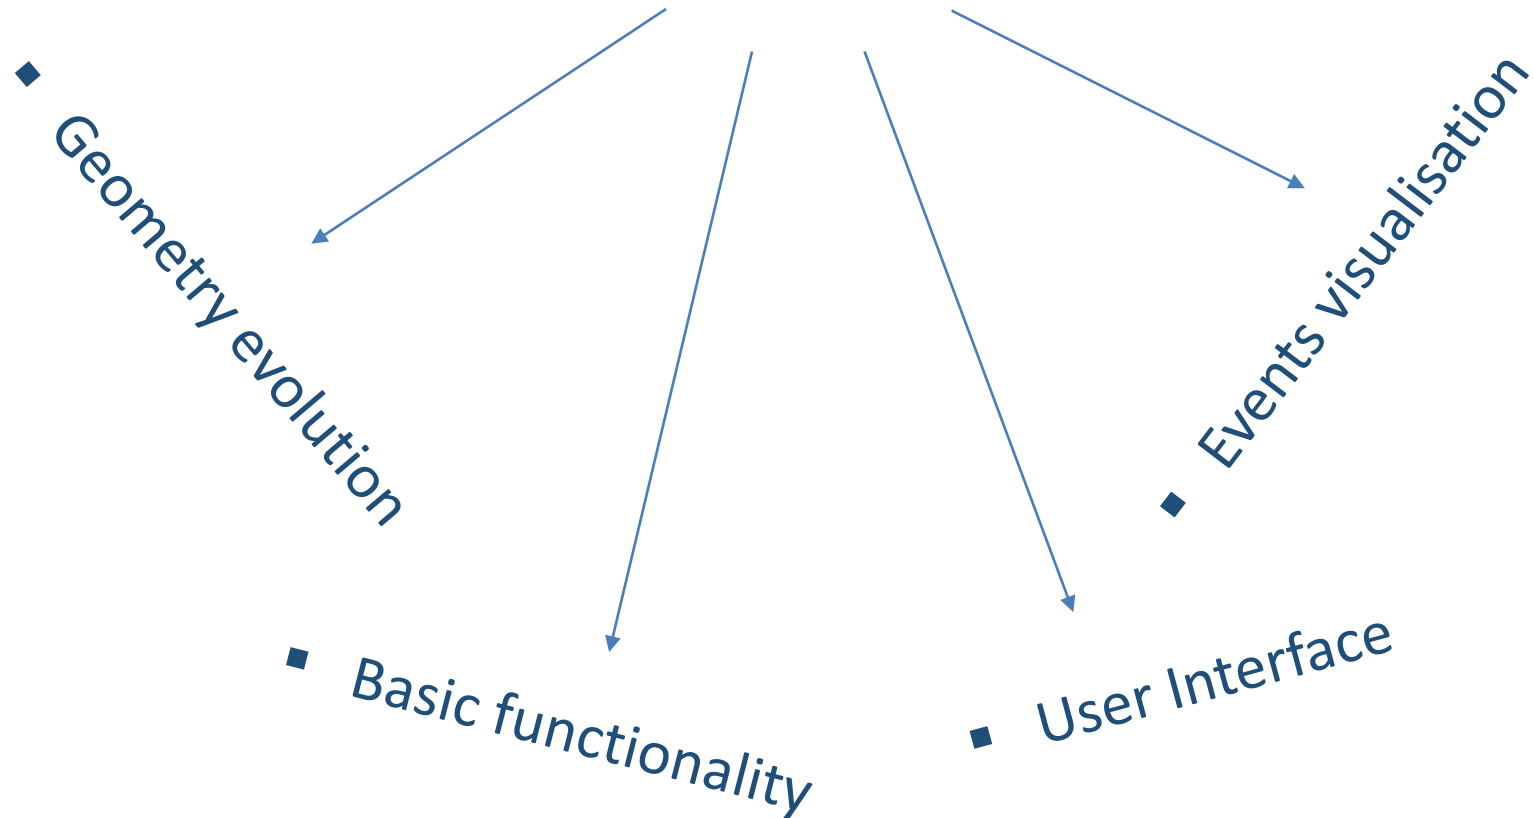

UDZILAURI Nikoloz – *GUI design*

KOBAKHIDZE Shota – *Geometry descriptions preparation*

KHELASHVILI Levan– *WebGL programming*

- Application release R2.4 is in development folder and not in production. You can reach it here [cadcamge.ch/at/r2.4/](http://cadcamge.ch/at/r2.4/)
- While it is development folder many bugs and unexpected functionalities will be existed
- Once R2.4 will closed and new R2.5 folder opened all updates from R2.4 will go to production folder [tracer.web.cern.ch](http://tracer.web.cern.ch)

There are 4 main directions of Tracer development:

Following New Components are added:

## 1. LAR Forward Calorimeter

3k→7k

## 2. LAR Hadronic End-Cap Calorimeter

4k→2k

## 3. LAR Electromagnetic Calorimeter

34k→5k

## 4. NSW JD Disk

2k→4k

## 5. NSW Hub

3k→2k

## 6. NSW Aluminium Structure with Chambers

39k→14k

## 7. Tile Barrel 12k→2k

## 8. Tile Extended Barrel

81k→19k

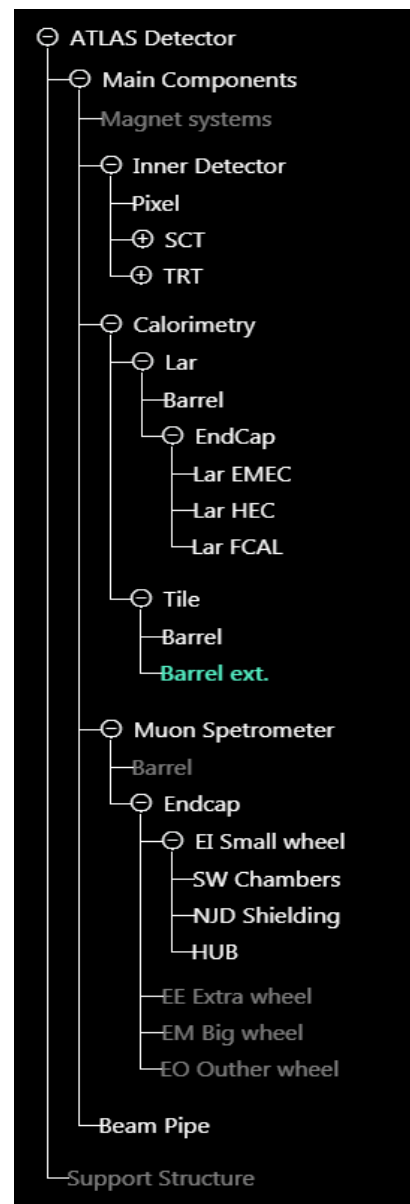

## ■ Geometry Evolution Schedule

Geometry Components of ATLAS Tracer							
	Components			Simplification			
				Desktop		Mobil	
1	INNER DETECTOR	PIXEL	353 015	80 283	77%		DONE
2	INNER DETECTOR	SCT	283 042	54 391	81%		DONE
3	INNER DETECTOR	TRT	707 072	32 904	95%		DONE
4	LAR EM	BARREL	102 086	37 000	64%		DONE
5	LAR EMEC	ENDCAP					
6	LAR HEC	ENDCAP					
7	LAR FCAL	ENDCAP	344 880	15 184	96%		DONE
8	TILE	BARREL	11'600	1'600			DONE
9	TILE	EXTENDED	81'000	19'000			DONE
10	MUON SMALL WHEEL	ENDCAP	73'000	11'000			DONE
11	MUON EXTRA WHEEL	ENDCAP					
12	TOROID MAGNET	ENDCAP	0				
13	FEETS		0				
14	WARM STRUCTURE						
15	TOROID MAGNET	BARREL					
16	MUON INNER	BARREL	0				
17	MUON MIDDLE	BARREL					
18	MUON OUTER	BARREL					
19	MUON BIG WHEEL	ENDCAP					
20	MUON OUTER WHEEL	ENDCAP					

## We added Components Tree in scene

- Components Hierarchy is now visible
- Possible to load/unload components by simple Click on tree
- For the moment just children's level is active, but later we will activate parents level for load/unload

We added some animation to scene:

- Protons animation in Beam pipe

- Tracks distribution from Z0

- Beam animation together with Tracks distribution
- Reading Tile Calorimeter Hits from XML and visualize them together with cells
- Adding Toroid Magnets geometry
- Organize components annotations for user interface

Comments are welcome,  
Thanks
