ATLASSQ Cppcheck tickets

✉  Frank Winklmeier

To:  Luka Todua; atlas-comp-ASCIG (ATLAS Software and Computing Infrastructure Group)

Hi Luka,

I see many Jira notifications from ATLASSQ on the CppCheck results. Something must be setup wrongly in your Jira instance because it seems I (and probably many other people) are getting emails for each ticket you create.

Before opening more tickets, can we please investigate this?

Thanks,
Frank
